

PGTB Ecosystem Whitepaper

Version 1.0 — May 2026

PROJECT OVERVIEW

Prime Global Network was created with the objective of connecting entrepreneurs, investors, professionals, and global opportunities through a modern, private, and functional Web3 ecosystem.

CORE MISSION

Prime Global Network combines blockchain technology, business networking, private community access, global expansion and real utility.

PGTB UTILITY

Access to private community, business networking, premium features, app and bot integration, ecosystem benefits.

CURRENT ECOSYSTEM STATUS

Active token on BNB Smart Chain, verified smart contract, swaps, holders, website online, iOS app under review.

LIQUIDITY STRATEGY

Targets and plans are intentions only and do not represent guarantees or financial commitments.

ROADMAP

Phase 1: Token launch, liquidity creation, website deployment. Phase 2: iOS launch and ecosystem integration. Phase 3: Global expansion and partnerships.
